**19 Vision Centres** 

## You Get What You Give

Susrut had been a very fortunate child. What I started as a dream, all these years many noble men & women gave their whole hearted support and made Susrut the epitome of love, care and humanity.

For me, there is no question of slowing down or retiring. It's very important that, for as long as God gives you the strength to work, you should work. You shouldn't decide based on your age. Work for me is not an effort, it's a joy,

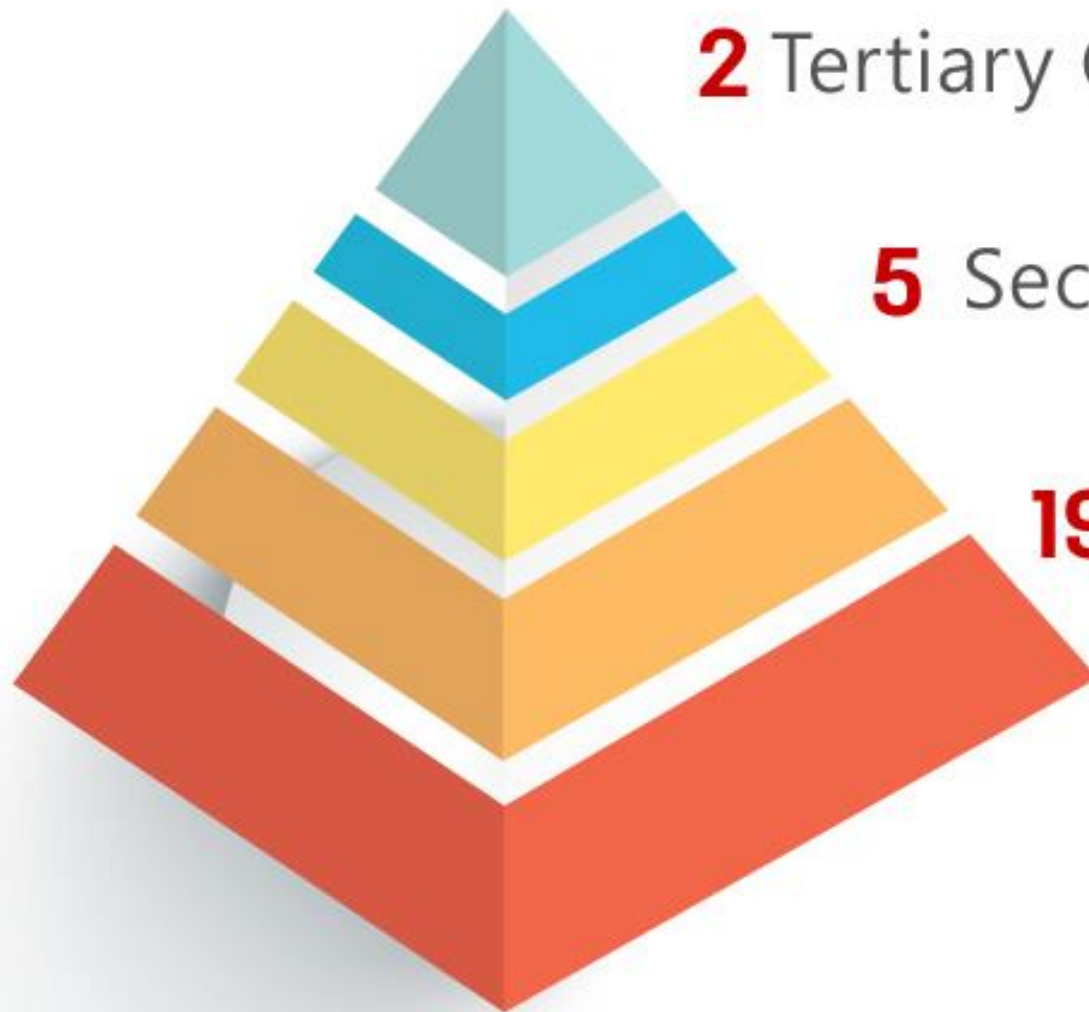

What I dreamt years ago, today's Susrut family is nurturing my dream with care and being blessed by millions of mankind.

Susrut will forever be focussed to their objective to provide eye care community services to one and all, irrespective of any social or economical background people and who are not reaching out.

Susrut Eye Foundation and Research Centre is a leading nonprofit organization founded with a motto to deliver comprehensive eye health care services to the people irrespective of financial background through its base hospitals and extensive outreach activities. The organization is one of the largest tertiary eye care centre backed up by state-of-art facilities and eminent eye care professionals. At present Susrut is operating in 8 districts of West Bengal through 2 tertiary hospitals, 5 secondary branches and 19 vision centres.

We organize free camps in school and ICDS of different districts of the state like Howrah; North 24 Parganas (Habra I & II, Sandeshkhali I & II, Basirhat I & II); South 24 Parganas (Joynagar I & II, Diamond Harbour I & II) to assess the refractive error and dispense free spectacles, recognition of cataracts and referral to the hospital for surgery, squint and squint surgery.
